Public School Districts in Maine--there is not set pay scale for interpreters in any school district in Maine. Personally, I have been paid in the following ways: as an assistant teacher, on a regular teacher's pay scale, on a miscellaneous negotiated district contract (with benefits), and on a self-employment contract. The state of Maine Dept of Ed has a position title of American Sign Language Interpreter, but districts seem to avoid using it.

[BOSTON](#) part of the Boston Teacher's Union. They recognize our college credits taken up to 90. (There is discussion to recognize up to Bachelor's). We pay only 10% of our health insurance.

We are working towards the City recognizing any form of credentials, which at this time, they do not. I believe we are the highest public school terps in all of Massachusetts, but we also have some of the highest cost of living in the country to counterbalance our pay. Please be sure to include some comparisons including cost of living adjustments in your research. Some of the other cities in our state pay half of our hourly wages. 2006 wages range between \$26.66 to \$27.81 per hour with 90 college credits held. We have a team of 9 part-timers, and tend to work in teams most of the day. We serve 7 students in 3 grades and 4 majors and have funding to

equal 7 full-time-equivalent positions. Team members work between 20 and 36 hours per week, with most working 32 hours over 4 days. 40 hrs/5 days is considered full time. All have full benefits.

Uncertified Interpreters receive a \$2,500 stipend per year. Certified Interpreters receive the following stipends per year:

Level I \$2,500 , Level II \$4,000 , Level III \$5,500

Interpreters with more than 30 years of experience and employed a minimum of 90 days with MISD during the 2005-2006 school year will receive a minimum increase of 4% above their 2005-2006 base salary.

Included in this raise is the \$500 state flow-through money that has been administered by TRS as health reimbursement in previous years. This flow-through money is now built into the district salary schedules. An employee (including retire/rehires) who did not receive the state flow-through in 2005-2006, will actually receive \$500 less than the schedule indicates. Part-time employees will also receive corresponding percentage reduction.

Public School Districts in Vermont

Public School Districts in Virginia VDOE does not set a pay scale for educational interpreters in the state of Virginia. Each school division sets its own pay scale. Northern Virginia normally has a higher pay scale due to the fact of the higher cost of living. Our school interpreters are currently on the classified pay scale - check out <http://www.rcps.info>. Go to job opportunities or human resources, classified, etc. RID certified interpreters get a \$2,000 annual supplement (stipend). We are still negotiating to be put on the professional pay scale equivalent with teachers.
