Foreword

The Church has a divine commission to teach our Father's children and help them return to his presence. Before a person can obey a principle of the gospel, he must understand it. Communication is the means by which a person learns the truths of the gospel. Since deafness interferes with communication, communication with deaf members must be improved.

This dictionary was developed and reviewed by deaf members. It includes words and phrases that are unique to The Church of Jesus Christ of Latter-day Saints.

The vocabulary in this book should help improve communication for hearing-impaired members who use signing and should serve as a guide to local leaders, teachers, missionaries, and others in using the same signs for specific words and phrases.

The signs in this dictionary were carefully selected. A sign may stand for more than one word. Deaf members should avail themselves of every opportunity to study and learn the gospel.

The complete concept intended to be conveyed by signing is better understood by those familiar with the gospel.

Words are arranged in alphabetical order except where one sign is used for several words. Illustrations were made as accurately as possible, but lack the three-dimensional depth of actual signing.

We hope this will serve as an aid in communicating the truths of the gospel and be instrumental in bringing happiness to those who abide by the precepts taught by our Savior.

The two-dimensional line drawing can never fully depict the three-dimensional nature of signs. For this reason, a notation on some of the signs indicates the movement.

For those interested in increasing their communication or interpreting skills, following are some of the good sign-language books available. If you cannot find them in your local bookstores or library, the publisher or your local vocational rehabilitation office will be able to help you.

1. O'Rourke, Terrence J. *A Basic Course in Manual Communication*. Silver Spring, Md.: The National Association of the Deaf, 1973. (The National Association of the Deaf, 814 Thayer Avenue, Silver Spring, Maryland 20910.)

Beginning sign-language book containing illustrations for 737 signs. Includes practice exercises, an appendix of some of the newer signs for pronouns, affixes, articles, etc., and a bibliography of books related to deafness.

2. O'Rourke, Terrence J. *A Basic Vocabulary, American Sign Language for Parents and Children*. Silver Spring, Md.: T.J. Publishers, 1978. (T.J. Publishers, Inc., 8805 Arliss Street, Silver Spring, Maryland 20901.)

3. Fant, Louie J., Jr. *Say It with Hands*. Silver Spring, Md.: The National Association of the Deaf, 1964. (The National Association of the Deaf, 814 Thayer Avenue, Silver Spring, Maryland 20910.) Beginning sign-language book containing illustrations of signs plus practice exercises. Signs are arranged in chapters according to one basic hand shape.

4. Fant, Louie J., Jr. *Ameslan*. Northridge, Calif.: Joyce Motion Picture Co., 1972. (Joyce Motion Picture Company, 18702 Bryant Street, P.O. Box 458, Northridge, California 91324.)

Contains about 375 photographs illustrating signs in American sign language and practice exercises. The author's objective is to teach the hearing how to put signs together the way deaf people do.

5. Riekehof, Lottie. *Talk to the Deaf*. Springfield, Mo.: Gospel Publishing House, 1963. (Gospel Publishing House, 1445 Boonville Avenue, Springfield, Missouri 65802.)

Beginning sign-language book containing illustrations and written descriptions of signs. Whenever possible, the root meaning of the sign is given to make it easier to remember. Signs are grouped into categories in which they most naturally fall so that they can be learned in association with signs of similar meaning.

6. Watson, David O. *Talk with Your Hands*. Menasha, Wisc.: George Banta Co., 1964. (David O. Watson, Route One, Winneconne, Wisconsin 54986.)

Beginning sign-language book with signs illustrated by simple line drawings. Signs arranged in categories. Contains examples of conversational sign language.

7. Watson, David. *Talk with Your Hands*, vol. 1, revised. Menasha, Wisc.: George Banta Co., 1978. (David O. Watson, Route One, Winneconne, Wisconsin 54986.)

Contains signs used in and around the home; signs concerning such things as money, the anatomy, and the family. Also contains practice exercises.

8. Watson, David. *Talk with Your Hands*, vol. 2, revised. Menasha, Wisc.: George Banta Co., 1978. (David O. Watson, Route One, Winneconne, Wisconsin 54986.)

Signs for time and related terms, occupations, illness, medicines, and religion.

9. Guillory, LaVera M. *Expressive and Receptive Fingerspelling for Hearing Adults*. Baton Rouge, La.: Claitor's Publishing Division, 1966. (Claitor's Publishing Division, P.O. Box 239, Baton Rouge, Louisiana 70821.)

Presents a plan for learning to fingerspell basic phonetic elements instead of individual letters of the manual alphabet. Includes practice exercises and hints for developing expressive and receptive fingerspelling.

10. Madsen, Willard J. *Conversational Sign Language II*. Washington, D.C.: Gallaudet College, 1972. (Gallaudet College, Washington, D.C. 20002.)

An intermediate-advanced manual divided into three sections: A Review of Basic Signs and Fingerspelling, English Idioms in Sign Language, and Sign Language Idioms. Part 1 covers 750 English words and their interpretations into sign language. Part 2 deals with the interpretation of English idioms into sign language. Part 3 presents colloquialisms prevalent among the deaf in informal conversational situations.

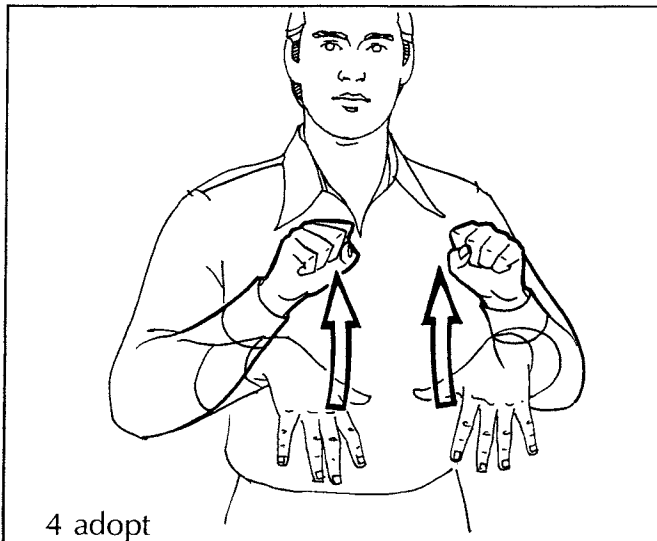

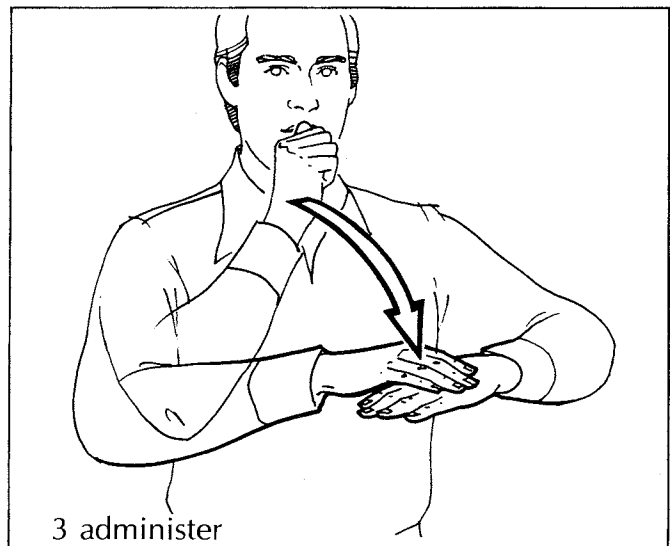

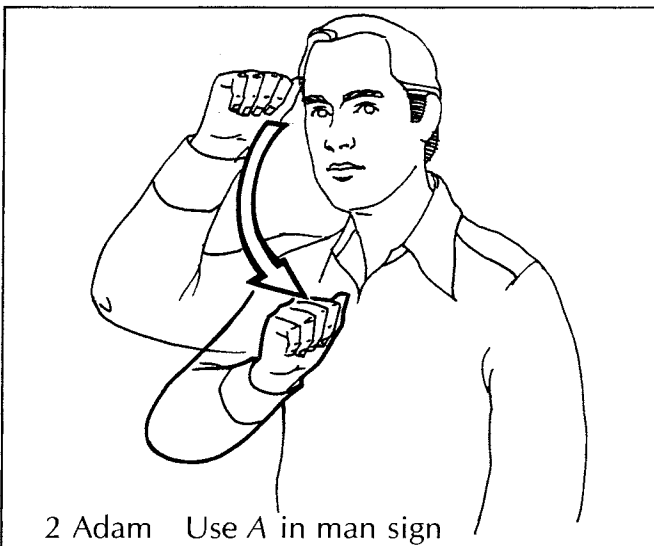

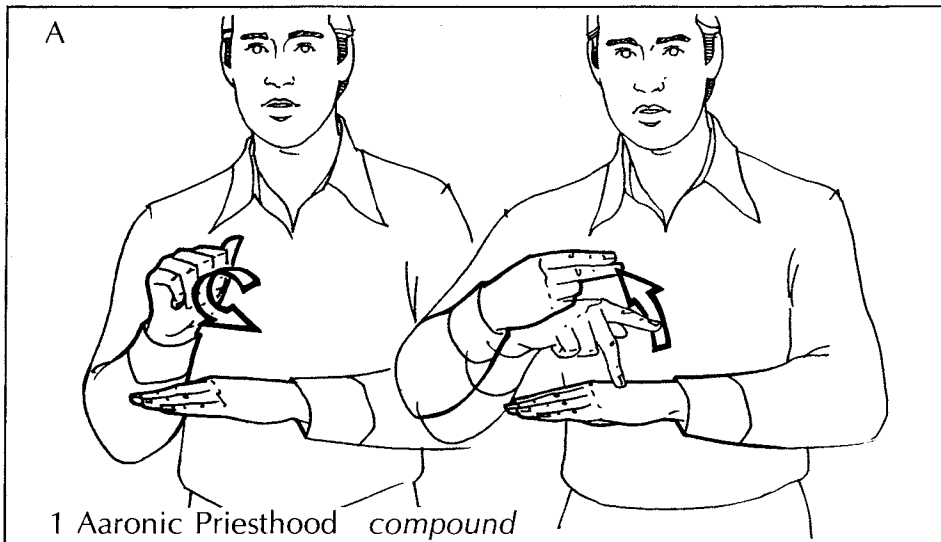

11. Riekehof, Lottie L. *The Joy of Signing*. Springfield, Mo.: Gospel Publishing House, 1978. (Gospel Publishing House, 1445 Boonville Avenue, Springfield, Missouri 65802.)

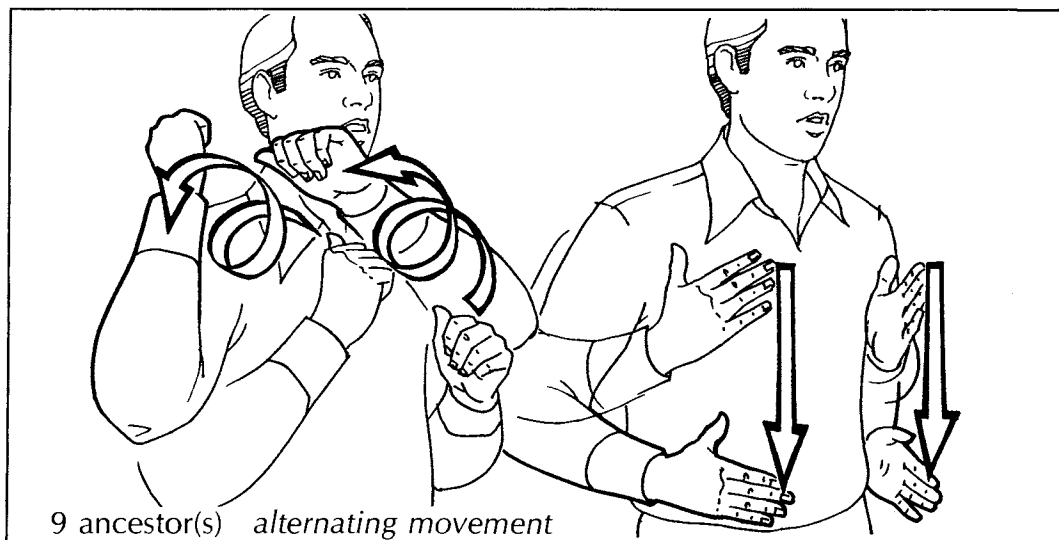

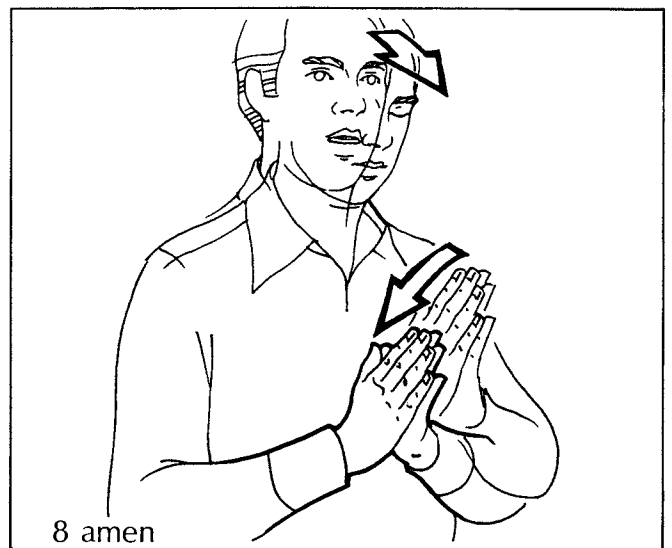

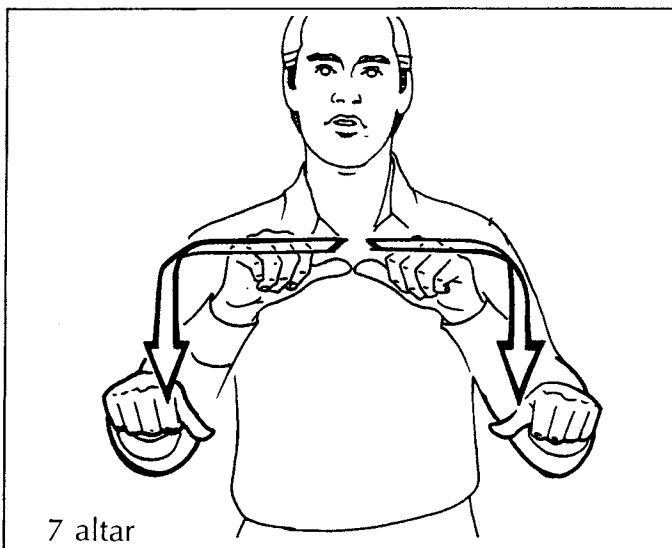

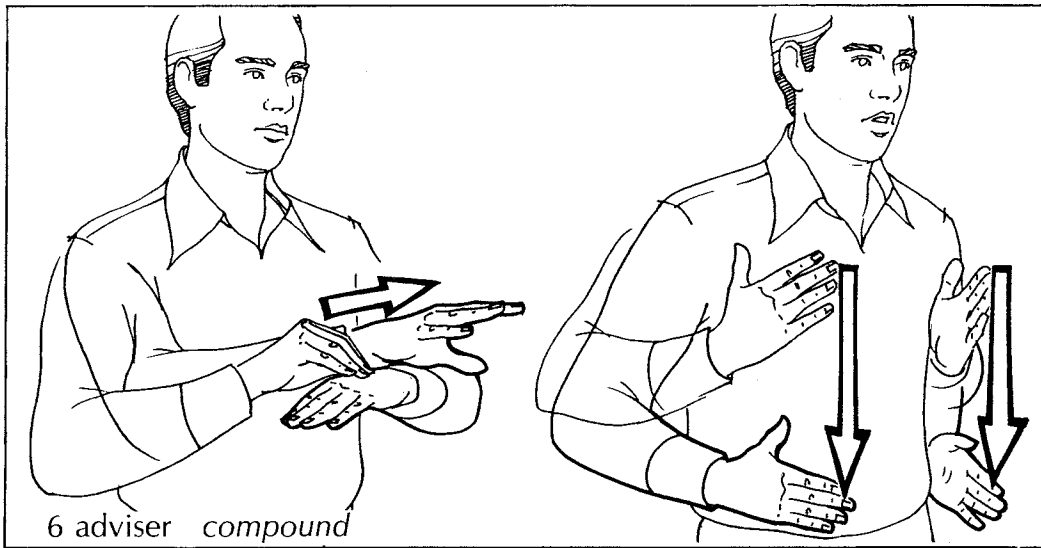

Provides the learner with knowledge of the basic traditional signs used by the adult deaf. Clear line drawings plus step-by-step descriptions of the hand positions and movements are given. Also included are the origin of the sign and an example of its usage.
